Constipated Children Gladly Take

"California Syrup of Figs"

For the Liver and Bowels

Tell your druggist you want genuine "California Syrup of Figs." Full directions and dose for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."—Beware!

RANDOLPH

The roll call of the Baptist church was held on Wednesday evening at the church with a good attendance. A supper was served at 6:30, which was attended by the people of the church, after which there was a short program and the roll call, to which members responded. Miss Beatrice Pinney, the organist, gave an organ solo, and J. H. Harlow a clarinet solo, after which there were remarks by the pastor, Rev. F. S. Tolman. Forty-six dollars was received as a thank offering.

The Rochester club gave a final dance in the grange hall on the evening of May 1.

Max Thomas, lately discharged, is in town this week with his parents, Mr. and Mrs. F. B. Thomas.

Mrs. George Robinson and her daughter, Miss Doris Robinson, of Warren, have been the guests of Mrs. H. O. Jones this week, leaving for their home on Thursday afternoon.

The discharge of William Blanchard, Max Thomas, Alton Hull, Golden Prentice, George Cruikshank of West Brookfield, and Philodor Polier of Brattleboro, at Camp Devens this week brought these boys all home to this place this week.

Robert Chambers, who has been overseas 18 months, arrived in New York April 23, and is receiving treatment for rheumatism in a debarkation hospital, with the hope of early recovery.

The bakery has changed hands this week, Peter LaBell selling the same to Charles Kendle, who has been conducting a shoe shop on Main street. The same help will remain for a time. Mr. and Mrs. LaBell have no definite plans at present.

The Randolph Woman's Literary club met Saturday with Mrs. J. B. Adams. Twenty members were present and responded to the roll call with quotations. Mrs. H. A. Leonard had charge of the program, which was as follows: "The Nightingale and Rose," Miss Blanche Sparhawk; reading selections from Eugene Field's poems, Miss May K. Howe; recitation, "The Subjugation of William, the Kaiser," Marguerite Thomas; reading, "The Other Man," Mrs. E. S. Tracy; solo, "I Shall Meet You," Miss DeKeyser. Mrs. F. A. Eaton was elected to fill the vacancy caused by the removal of Mrs. A. E. Bass.

The program at the grange on Saturday night was in charge of the lecturer, George Flint, and was as follows: Piano solo, Pauline Hutchinson; "The Grange Echo," Mr. and Mrs. Daniel Bass; debate, "Resolved, that a league of nations

EXPECT ROUNDUP OF 'REDS' TO-DAY

In Connection With Investigation of May-Day Conspiracy

PEACE DELEGATION IN PARIS WARNED

Twenty-Five Bombs Known to Have Been Sent by Mail from New York City

New York, May 2.—Police officials were expected to make a roundup of "Reds" here to-day in connection with the nation-wide May day conspiracy to kill prominent men with bombs addressed to them through the mails. Twenty-five of these machines are known to have been dispatched, one exploding and the others being turned over to the authorities. It is assumed that the warnings sent broadcast render it improbable that any bombs which may still be in transit will accomplish the expectation designed for them.

It was reported here to-day that cablegrams had been sent to members of the peace delegation in Paris warning against opening packages. However, it was declared nothing had been learned by investigators to indicate that any deadly contrivances had been sent abroad.

CONGREGATIONAL CONVENTION.

Randolph Center Will Entertain Representatives of Orange Co. Churches.

The 90th annual meeting of the Orange County Association of Congregational Churches will be held with the church at Randolph Center May 8 and 9. George K. Sprague of East Brookfield is moderator of the meeting and John M. Comstock of Chelsea is clerk. The general topic for the meeting will be, "The Church as a Builder of Character," and the program is as follows:

Thursday morning—Devotions, led by Rev. Fraser Metzger of Randolph; greeting, Rev. Mr. Barker; response by moderator; organization; dinner.

Thursday afternoon—Devotions, led by Rev. J. C. Mitchell of Tunbridge; reports; report of condition of churches, Rev. John Irons of Williamstown; supplementary reports from each church by its delegates; "Is Character Building the Church's Fundamental Business?" Rev. J. A. Lawrence, Chelsea; "Your Modern Christian—His Essential Characteristics and How the Gospel Develops Them," Rev. L. G. Chase, East Brattleboro; "Are Our Plans of Religious Education Adequate to Our Character-Building Task?" Rev. A. H. Sargent; "The Church's Relation to the Community Agencies (a) That Build Character (b) That Destroy Character," Rev. Fraser Metzger; "Some Character-Building Work in Vermont During 1918-19," Secretary C. C. Merrill.

Thursday evening—Song service; "The Home Missionary as a Builder of Character," Secretary W. S. Beard of the Congregational Home Missionary society; "The Chance on the Foreign Field to Build Character," Rev. A. H. Clark.

Friday morning—Devotions, led by Rev. Mr. Barker; address, Secretary W. S. Beard; address, Rev. A. H. Clark; question box on local problems, conducted by Secretary C. C. Merrill; business; communion service, Rev. A. H. Sargent and Rev. Fraser Metzger; dinner.

Rev. Mr. Beard is one of the newer secretaries and he will speak in regard to the special problems of the day. Mr. Clark is a missionary of the American board in India.

Each Congregational church in Orange county is entitled to a representation of its minister and four delegates and these delegates should be formally elected. Those intending to remain over night should notify Harry Cooley, Randolph Center, by May 6.

The annual state convention of the Knights of Columbus is to be held in Burlington May 28 to 28.

Fruit-Juices In Vials

Jiffy-Jell flavors come sealed in glass—a bottle in each package. Each is rich essence, condensed from fruit juice. Add boiling water, then this essence, and you have a real-fruit gelatine dessert, and at trifling cost. You should know this fruity dainty.

ABOUT THE STATE

Happenings of Interest from Different Sections.

Harold Holmes, 16, broke one leg in two places this week while playing ball in Bellows Falls.

Mr. and Mrs. G. C. Bicknell observed their golden wedding anniversary at their home in Jericho April 21.

Two Hydeville men have taken five acres of land on which to plant potatoes this season that have not been ploughed for 40 years.

Mrs. Louise Gilbert, owner of the Frontier house, which burned at North Troy last week, has decided not to rebuild. She lost practically all her belongings.

Brattleboro yesterday was in gala attire for the purpose of welcoming her returned soldiers, entertainment being provided all the afternoon and evening for the boys and their friends.

William Mahar, a partner in the firm of Mahar brothers of Fair Haven and who represented that town in the last legislature, is critically ill with typhoid fever and is not expected to recover.

W. D. Bull recently caught a turtle near Lake Bomoseen, in Hydeville, thought to be the largest ever found around the lake. It weighed 54 pounds. Mr. Bull will mount it and keep it as an ornament.

The Altrurian club of Springfield conducted a tag day last Saturday and cleared \$99.20, which has been offered the chamber of commerce to help defray the expenses of a celebration to be given returning soldiers.

F. V. Bostwick of Charlotte, station agent, has filed a petition in bankruptcy in the office of the clerk of the United States court in Rutland. He owes \$118.41 and has assets of \$200, all of which is claimed to be exempt.

Frank H. Philburt, who has been assistant cashier of the Merchants' National bank in St. Johnsbury, has resigned to become treasurer of the Vermont Maple Sugar company, with headquarters at Essex Junction.

H. N. Gray of Cambridge loaded at that station a few days ago a carload of sugar, the value of which was \$1,100, and a carload of syrup, the value of which was \$4,500. He has purchased about double that amount this season.

Dr. Luther J. Calahan, a physician in Manchester and a native of Bristol, has been twice cited for bravery in war work and has received the Belgian war cross by mail, sent him by the king of Belgium. Dr. Calahan served with the 77th division.

In memory of three young men from Post Mills who made the supreme sacrifice during the world war, Maj. E. A. Cook, Corp. Clarence Robinson and Private Nathan Hill, three trees were planted on the church common on a recent evening, with appropriate ceremonies.

Fred Reed was buried by a cave-in on Main street in Newport this week, where he was working. He was alone when the accident happened and his head and shoulders were buried, which would soon have proved fatal had not someone seen the accident from a distance and hurried to his assistance. He was lame and bruised.

The two young men who were in St. Johnsbury a few weeks ago selling "Our Heroes Welcome Home" banners for 25 cents, which probably represented that amount of profit, were arrested in Fall River, Mass., last week charged with posing as United States soldiers and wearing the uniform illegally. They were liberally patronized in St. Johnsbury.

Jonathan Adams of Cambridgeport, who lived alone, died last week and after the funeral the body was taken to St. Johnsbury for burial. Within an hour after the house was closed up fire was discovered, which spread so rapidly that the entire set of buildings, with their contents, were burned. The origin of the fire is unknown. There was no insurance on the property. It was the second time the buildings on the place had been destroyed by fire and twice before that in the past 20 years Mr. Adams had been burned out.

AN AUTO FOR \$300.
English Manufacturers Preparing to Put It on the Market.

An English manufacturing company announces that it is preparing to put on the market an automobile that can be retailed for not more than \$300.

No wood will be used in its construction, the principal material being a new substance which is described as "a kind of concrete, light, but strong and durable, produced from waste materials such as slag, clinkers and sawdust and covered with a metal solution."

The process of manufacturing is another innovation in England. All parts, including wheels and chassis, will be stamped out, each complete in one piece, and then fitted together.

The manufacturers expect to compete with cheap American cars, because "tax and freight charges are expected to raise the price of the American article considerably above the figures asked from United States buyers."

JUGO-SLAVS ARE ATTACKING

Offensive Is Said to Be Carried On Over 50-Mile Front

CARINTHIA DUCHY ORDERS MOBILIZATION

Allies Are Seeking to Settle the Conflict in German Austria

Geneva, May 2.—The government of Carinthia has ordered the mobilization of twenty military classes in order to arrest the invasion of German-Austria by the Jugo-Slavs, according to a dispatch received at Berne from a reliable source.

Jugo-Slavs are reported to be attacking on a 50-mile front for the purpose of seizing Klagenfurt and Villach, from which they are now only 15 miles distant. Vienna is said to be preparing to aid the Carinthian troops and the allies are seeking to settle the conflict.

Carinthia is a titular duchy of Austria situated east of the Tyrol and north of Carniola. The capital is Klagenfurt. Two-thirds of the people are Germans and the remainder Slavs.

INJURIOUS INSECTS EXHIBITED.

Specimens Have Been Furnished to Various Schools in Vermont.

With the completion of a distribution now being made by the office of the commissioner of agriculture, educational exhibits of injurious insects will have been furnished to each junior and junior-senior high school in the state, as well as to the state agricultural schools at Randolph Center and Lyndon Center.

These exhibits are in the form of stained nine specimen mounts and the other section typewritten data setting forth the principal features concerning each pest and citing references for more complete study. The selection of specimens varies somewhat to meet local conditions. All of them contain full life history mounts of the gypsy moth and the brown-tail moth and specimens of the Cystar shell and San Jose scale. Those recently prepared also show the newly imported European corn borer. Some of the more common insects displayed in their various stages are the tent caterpillar, canker worm, red-humped and yellow-necked caterpillars, elm leaf beetle, white pine weevil, tussock moth and some of the more important garden insects.

Although designed especially for information of the school children and class-room study, they will be of service in identification and comparison of specimens brought or sent in by residents of the surrounding country.

The specimens are collected and mounted and the cases prepared by H. L. Bailey, assistant to Commissioner Brigham, in charge of insect suppression.

VERMONT'S FIRST PLACE PROVEN.
Contributed Highest Per Cent to Relief Work in Near East.

A letter recently sent to various individuals in Vermont by C. V. Vickrey, secretary for the American committee for relief in the near east, gives the impression that the state of Washington contributed 163 per cent of its quota in the recent drive and therefore stands at the head of the list, Vermont being second with 157 per cent. This is an error.

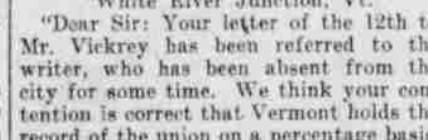

It appears that for purposes of the campaign the state of Washington was divided into east and west sections. The east section is credited with 163 per cent. The west section with 120 per cent, making the total for the state of Washington 141 per cent. Vermont is credited with 157 per cent and is entitled to first place.

The following letter from Harry G. Hoak, director eastern division of campaign headquarters, will explain the situation.

"New York, April 23, 1919.
"Mr. Roland E. Stevens,
"First National Bank Bldg.,
"White River Junction, Vt.
"Dear Sir: Your letter of the 12th to Mr. Vickrey has been referred to the writer, who has been absent from the city for some time. We think your contention is correct that Vermont holds the record of the union on a percentage basis. It happens that we have treated east Washington and west Washington as two separate states, which is also true of Texas and Missouri, but as a state Vermont unquestionably leads. We are greatly appreciative of the splendid work that has been done in your good state. (Signed) "Harry G. Hoak."

Bill Rendered.
Dalton—You should pay more attention to your personal appearance, old chap. Remember that clothes make the man.
DeBroke—Yes, but for me the man refuses to take any more clothes.—Boston Transcript.

**CARE OF GROWING CHICKS.**

Heat Is Necessary But in Less Degree Than Just from Incubator.

At this time of the year when outside work is so pressing, it very often is the case that the poultry is neglected. This should not be. The care of young chicks is very important; it means the success or failure of next year's crop of eggs. Supposing at this time we put a little attention on this branch of farm work, so that an efficient basis is arranged; it will take but little time and thought, and still you will feel sure that the chicks are getting all the care and attention they need. Try feeding them three times a day on the following rations and do not forget that exercise is very necessary: 70 pounds cracked corn, 20 pounds oats, 10 pounds wheat.

Heat is as necessary to chicks of this age as fresh enough so that the grain goes out of sight when you scatter it.

For the dry mash, use equal parts of bran, middlings, corn meal, ground oats, gluten feed and meat scraps. Chick scraps should not be added until the chicks are ten days old or more. If plenty of sour milk is fed, cut the meat scrap ration in half. Keep the dry mash hopper closed until noon, then give them all they want to eat in the afternoon.

Heat is necessary to chicks of this age as when they first come from the incubator; but, of course, in a lesser degree. It is impractical to mention any stated temperature for the different ages of chicks; one should go entirely by the actions of the chicks at night. Run the brooder temperature as cool as you can and not have the chicks crowd around the heater drum.

If other information is desired, write to your county agent or to the extension service of the University of Vermont.

Vermont's Obligation to Visitors.

Another Vermont hotel structure has gone up in smoke. Every loss of this nature, as The Barre Times remarks, hurts immensely in our efforts to make headway in the tourist business, because a large proportion of these burned hotels are not replaced. Within the past year or so public houses in unusual number have been burned, and practically none have been newly constructed. Vermont cannot expect to attract people from the outside unless it does at least three things: Furnish them living accommodations, charge them fair prices, and provide them good roads over which to travel. This is the trinity of prerequisites to building up hotel resort patronage. Nature has done everything conceivable to attract people to this state. The citizens of Vermont must do the rest.—Rutland News.
